

HOW-TO SELECT AND CHANGE YOUR PRIMARY: 4 STEPS TO SETTING UP YOUR ANALYSIS

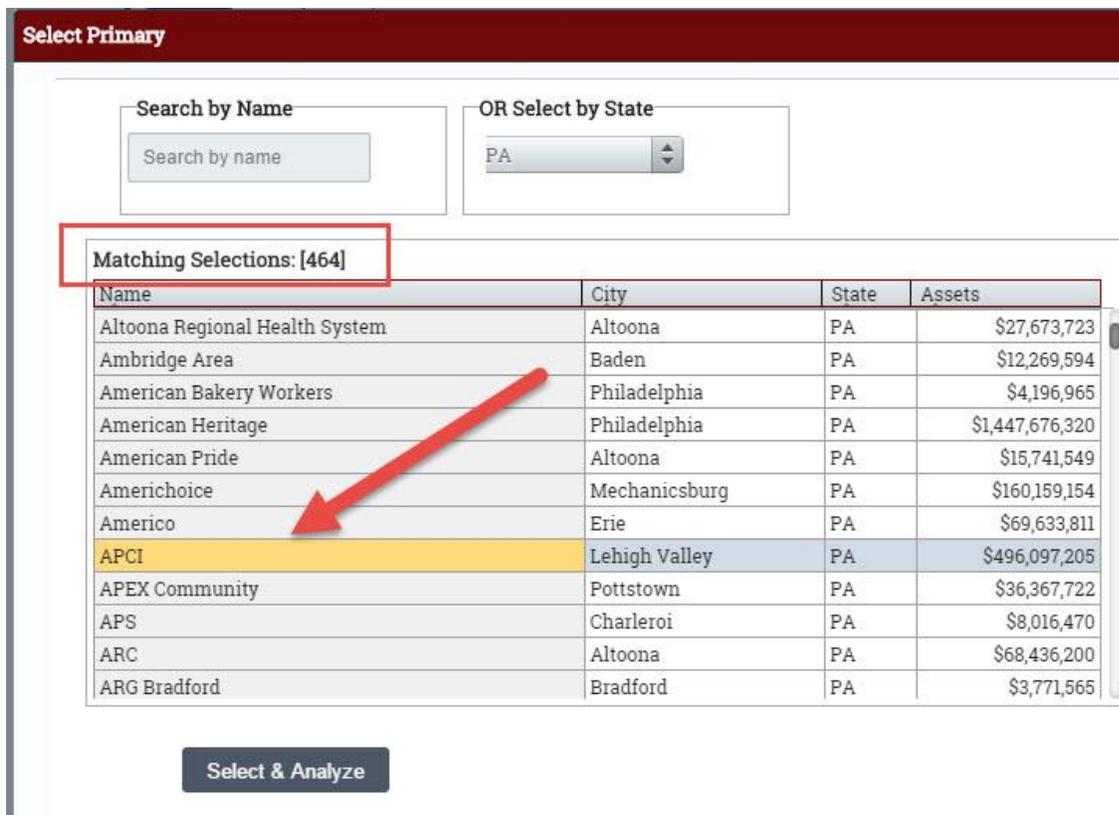

Step 1: Locate **Primary** in the upper left hand corner of the screen. Click on the down arrow.

Step 2: In the **Select Primary** pop up, either search for any credit union by name OR use the **Select by State** drop down. Using the **Select by State** drop down will pull a list of all the credit unions in the particular state you have selected.

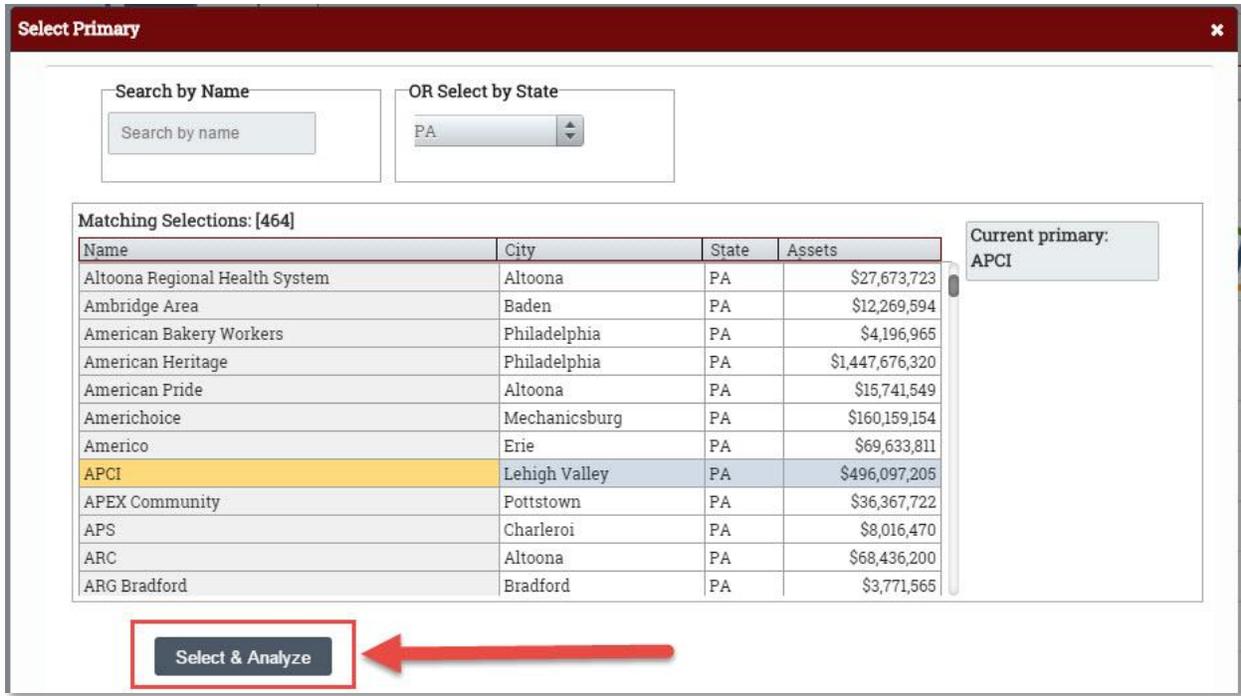

Step 3: Scroll through the **Matching Selections** table until you locate the credit union you would like to make the primary. Click on the credit union so it is highlighted in orange.

HOW-TO SELECT AND CHANGE YOUR PRIMARY: 4 STEPS TO SETTING UP YOUR ANALYSIS

Step 4: Click the **Select & Analyze** button.

The screenshot shows a software window titled "Select Primary" with a search interface and a table of results. The search criteria are "Search by Name" (empty) and "OR Select by State" (PA). The table lists 14 matching selections, with "APCI" highlighted in yellow. A red box and arrow point to the "Select & Analyze" button at the bottom left. A "Current primary: APCI" box is visible on the right side of the table.
